PROFESSIONAL SUMMARY

Being a Computer Science Engineer I am passionate about learning new technologies and tools. I am looking for an opportunity to work in a creatively challenging environment and utilize my technical skills and abilities towards achieving the goals of the organization.

SKILLS

- **Programming Skills:** Java
- **Web Development:** HTML5, CSS, React
- **Database:** MySQL
- **Languages:** English, Kannada, Hindi, Marathi

EXPERIENCE

Trainee @ ITVEDANT, Bengaluru

June 2024 - Present

- Developing expertise in full-stack web development, including HTML, CSS, React, Java, and SQL
- Working on real-time projects to enhance hands-on skills in both frontend and backend technologies.
- Developing responsive web applications with modern tools and integrating databases effectively.

AiROBOSOFT Products and Service, Bengaluru

Aug 2023 – Sep 2023

Worked as a Trainee at AiROBOSOFT Products and Services, contributing to multiple projects using Deep Learning, Machine Learning, and Python.

- Created a Machine learning project for credit card fraud detection using the Random Forest algorithm.
- Performed data analysis and predictive modeling with a focus on medical data and heart disease prediction.

EDUCATION

Bachelor of Engineering (Computer Science)

KLE College of Engineering and Technology, Chikodi

Sep 2020 - May 2024

CGPA 8.0 /10

PROJECTS

Wild Animals Intrusion Detection and Alerting

Jan 2024 - May 2024

- Developed a system to detect and alert about the intrusion of wild animals in human-populated areas using deep learning techniques.
- Utilized neural network architectures like SSD and faster R-CNN for effective animal detection.

Dance Academy Management System

Sep 2023 - Oct 2023

- Developed a web-based management system for a dance academy using MySQL, HTML, CSS, and React
- Created a web application for managing a dance academy using **React** for the frontend and **MySQL** for the backend. The React interface made the website fast, user-friendly, and easy to navigate.
- Built an admin panel for managing student registrations, scheduling, and fee tracking.
- Implemented role-based authentication for students, coaches, and administrators.
- Designed workshop registration & event notification system to enhance user engagement.

CERTIFICATIONS

- Java Full Stack Development 2024 – 2025 Certified in full-stack web development from ITVEDANT, specializing in Java, HTML, CSS, and React.
- Artificial Intelligence and Machine Learning.
